

Application Serial No. 10/675,313
Amendment dated January 29, 2007
Reply to Office Action dated November 3, 2006

Amendments to the Specification:

Please replace paragraph [0013] with the following amended paragraph:

[0013] The cover may include a plurality of resilient mounting members extending therefrom with the tabs being disposed on respective distal ends of the plurality of resilient mounting members. The terminal block may also include a guide surface disposed between said annular groove and a distal end of said terminal block wherein the guide surface tapers radially inwardly as the guide surface projects from the latching surface to the distal end. Such a guide surface may have a ~~frustroconical~~ frustoconical shape.
